

## Course Overview

Programme Management provides a structured framework for implementing your business strategies and initiatives through the coordinated management of dossier (collection) of projects and business change/transition activities.

Programme Management provides you with a mechanism for managing the pace of your business change and for actively driving out outcomes and benefits from that change. Your projects will be aligned to your strategy and your risks will be systematically managed.

Managing Successful Programmes (MSP®) provides a tried and tested solution for the implementation of programme management, as well as being a de facto standard across the world supported by an internationally recognised accreditation system.

This hands-on three day course will provide you with a solid model for setting up and successfully managing a benefits driven strategic change programme within your organisation. Case study sessions are used throughout this course to focus on the practical application of the method and reinforce learning. These case study sessions account for approximately 50% of the course.

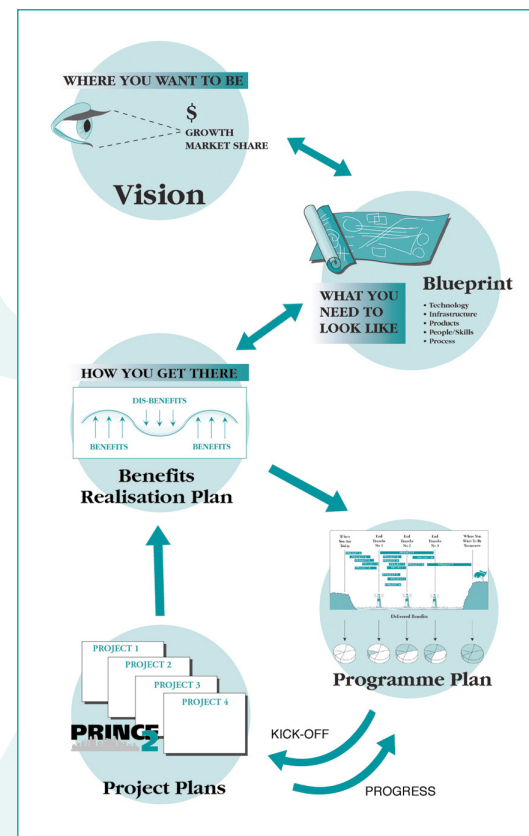

This course is offered publicly or can be delivered in-house within your organisation, with flexible timetables which can be varied to suit your availability.

This course leads to the MSP® Foundation Certificate, with the multi-choice exam being taken at the end of day 3. An additional day will prepare you for and allow you to sit the MSP® Practitioner Exam.

## Course Objectives

On completion of this course you are expected to be able to:

- » Understand programme management as a vehicle for managing business change
- » Understand the MSP® principles and practices in detail
- » Understand how to establish a programme vision and blueprint
- » Understand how to establish a benefits realisation plan linked to a project dossier
- » Understand how to establish programme governance structures
- » Understand how to establish and run projects as part of a programme

## Topics Covered

The following topics will be covered:

- » Why use Programme Management?
- » The Programme Management Environment
- » Types of Programmes
- » MSP® Principles
- » Organisation Roles & Responsibilities
- » The Programme & Project Interface
- » Creating a Programme Vision Statement
- » Blueprint Design & Delivery
- » Benefits Realisation Management
- » Leadership & Stakeholder Engagement
- » Risk Management & Issue Resolution
- » Quality Management
- » Information Management
- » Planning & Control
- » Tranches
- » Transition Management

- » Identifying a Programme
- » Defining a Programme
- » Managing the Tranches
- » Delivering the Capability
- » Realising the Benefits
- » Closing a Programme
- » Programme Management Benefits
- » MSP® Foundation Exam

## Delegate Participation

You will be involved in discussions throughout the course that will allow you to consider how MSP® can best be applied within your work environment. Case studies will provide practical exercises that serve to reinforce lecture sessions and provide an opportunity to apply the theory to your real programmes.

## Course Prerequisites

There are no specific prerequisites for this course. However, if delegates have a clear idea of their business strategies and the outcomes and benefits that they seek to deliver, they are likely to gain more value from the discussions and case studies and be better placed to apply programme management pragmatically within their organisations.

## Who Should Attend?

This course is designed for those wanting to gain a solid understanding of programme management and how it might be applied within their business. Business managers, business representatives, business change managers, programme managers, project managers and others who may be involved in a change programme or need to understand the principles of programme management and how to apply them should attend this course.

## Access and Equity

As a Registered Training Organisation (RTO), Tanner James strives to provide the optimum access and equity for candidates to its training services. To this end, it is important that clients notify Tanner James as early as possible when a participant may need to take advantage of these provisions.
