In-House MSP® Foundation

Why use Tanner James for your In-House MSP Foundation Training?

Because Tanner James offers a MSP Foundation Course that is focused on practical application in the workplace and flexibility.

Implementation Support and practical application in the workplace

We don't want participants to just leave with a MSP Foundation qualification; we want to give them understanding and knowledge about practical application of MSP in the workplace.

This is why our MSP Foundation Course includes a Workplace Implementation Pack. It is focused on helping participants implement the training when they get back to the workplace. The Workplace Implementation Pack consists of:

-  **A free half-day Implementation Workshop** to help answer participants specific questions about implementation in the workplace.
-  **Free telephone support** from the trainer for up to one hour in the month following the course.
-  **A free implementation checklist** so that participants are well placed to hit the ground running when they get back to work.

The total **value of this pack is over \$2,300**, however we package this in your course price at no extra cost!

You receive over \$4,500 GST Incl.
of additional value

FREE SES Executive Briefing

Senior executives want pragmatic application of MSP and to avoid common traps such as too much documentation. This is why we include this valuable session for free when you book the In-House MSP Foundation Course.

The highly engaging Executive Briefing equips SES officers with the understanding they seek in order to be able to provide overall direction to programmes using MSP. **This briefing is valued at over \$2,200 inc GST.**

Flexible Exams and Course Attendance

We want to ensure attendees are focused on learning about practical application in the workplace rather than passing an exam. We will discuss this approach with you and together work out a delivery plan to suit your needs.

We can schedule training to suit staff availability and current focus of their programme. For example this three day course could be run one day a week over three weeks. We will discuss this approach with you and together work out a delivery plan to suit your needs.

About MSP

Managing Successful Programmes (MSP) is a globally recognised, flexible programme management framework that can be used for a wide range of investments in change. It provides a way to achieve positive outcomes and realise tangible benefits aligned to strategic objectives. MSP ensures the reasons for change and the programme vision are effectively communicated and understood by all stakeholders.

About the Course

This hands-on three day course will provide you with a solid model for setting up and successfully managing a benefits driven strategic change programme within your organisation. Case study sessions are used throughout this course to focus on the practical application of the method and reinforce learning. The course will also prepare you to sit your MSP Foundation Exam.

Who Should Attend?

This course is designed for those wanting to gain a solid understanding of programme management and how it might be applied within their business. Business managers, business representatives, business change managers, programme managers, project managers and others who may be involved in a change programme or need to understand the principles of programme management and how to apply them should attend this course.

Course Prerequisites

There are no specific prerequisites for this course. However, if participants have a clear idea of their business strategies and the outcomes and benefits that they seek to deliver, they are likely to gain more from the discussions and case studies.

Course Objectives

- Understand programme management as a vehicle for managing business change
- Understand the MSP principles and practices in detail
- Understand how to establish a programme vision and Target Operating Model
- Understand how to establish a benefits realisation plan linked to a delivery plan
- Understand how to establish programme governance structures
- Understand how to establish and run projects as part of a programme

Exercise sessions

Exercise sessions and discussions are used throughout the course to reinforce the learning process. This gives participants a practical way to look at how MSP can be used in their own workplace.

Exam

The course fee includes an opportunity to sit the MSP Foundation Exam. The exam may be sat online and can be scheduled at a time where you feel best prepared. This allows you to focus your attention on learning without having the pressure of having to sit the exam.

Exam format:
