TANNER JAMES
•MANAGEMENT CONSULTANTS•

Why use Tanner James for your In-House PRINCE2 Agile Training?

Because Tanner James offers a PRINCE2 Agile Practitioner Course that is flexible and provides post-course support for practical application in the workplace.

Implementation Support and practical application in the workplace

We don't want you to just leave with a PRINCE2 Agile Practitioner qualification; we want to give you understanding and knowledge about practical application of PRINCE2 Agile in your workplace.

This is why our PRINCE2 Agile Practitioner Course includes a Workplace Implementation Pack. It is focused on helping you implement your training when you get back to the workplace. The Workplace Implementation Pack consists of:

Free telephone support from your trainer for up to one hour in the month following the course.

A free implementation checklist so that you are well placed to hit the ground running when you get back to work.

Flexible Exams and Course Attendance

We want to ensure attendees are focused on learning about practical application in the workplace rather than passing an exam. This is why we work with you to find an exam delivery plan to suit your needs - at no extra charge.

We can schedule training to suit staff availability or the current focus of their project. For example splitting the course over two or more weeks. We will discuss this approach with you and together work out a delivery plan to suit your needs.

Training Rooms

If you don't have availability for training rooms in your building or even if it's just difficult to book one, Tanner James has a training suite at our Canberra City office that we can arrange for your organisation to use for your course. Subject to availability we can offer your organisation the use of a training room for your course.

About PRINCE2 Agile

PRINCE2 Agile is built upon the clearly defined framework of PRINCE2® and combining the flexibility and responsiveness of agile. PRINCE2 Agile covers a wide range of existing agile concepts including SCRUM, Kanban and Lean Start-up.

The best-practice guidance shows how organizations can harness the compatibility between PRINCE2 and agile, equipping them with the required knowledge, skills and processes to successfully deliver projects to meet customer requirements in today's fast-paced and rapidly-changing business environments.

About the Course

The PRINCE2 Agile Practitioner Course is a 2-day course for those who would like to extend their knowledge of PRINCE2 Agile by learning how to practically apply the PRINCE2 Agile method to real-life scenarios. The course combines instructor lead sessions along with PRINCE2 Agile Practitioner exam practice sessions. The course is designed to effectively prepare you to sit and pass the PRINCE2 Agile Practitioner Exam.

PRINCE2 AGILE®
ACCREDITED TRAINING ORGANIZATION
PeopleCert ON BEHALF OF AXELOS

Training ... Supporting Best Practice Skills Development and Skills Transfer

Who Should Attend?

This course is aimed at those who are currently working in, or are looking to work in an agile environment. This may include:

- Project Managers
- Team Managers / Team Leaders
- Project Coordinators / Support
- Team Members
- PMO members

In existing agile environments, specific roles may include Scrum Masters, Product Owners, and members of Agile Development Teams. However, please note the course does not revise PRINCE2 material in a lot of detail. The focus is on the concepts of Agile ways of working and how to apply or tailor the PRINCE2 principles, themes and processes in an Agile context.

Course Prerequisites

Candidates must hold a current PRINCE2 Foundation certificate; PRINCE2 Agile Foundation Certificate; or PRINCE2 Practitioner Certificate in order to be eligible to sit the PRINCE2 Agile Practitioner exam.

Please note that whilst no pre-course reading is required, very little time is allocated to the revision of PRINCE2 during the course and a general awareness of the basic concepts of agile ways of working is assumed.

Exercise sessions

Exercise sessions and discussions are used throughout the course to reinforce the learning process. This gives you a practical way to look at how PRINCE2 Agile and agile ways of working can be used in your own workplace.

Course Objectives

On completion of this course you are expected to be able to:

- Understand the basic concepts of common agile ways of working
- Understand the purpose and context for combining PRINCE2 and the agile way of working
- Be able to apply and evaluate the focus areas to a project in an agile context
- Be able to fix and flex the six aspects of a project in an agile context
- Be able to apply the PRINCE2 principles and tailor the themes, processes and management products to a project in an agile context.

Access and equity

Tanner James strives to provide the optimum access and equity for candidates to its training services. To this end, it is important that clients notify Tanner James as early as possible when a participant may need to take advantage of these services.

Exam

The course fee includes an opportunity to sit the PRINCE2 Agile Practitioner Exam. The exam may be sat online and can be scheduled at a time where you feel best prepared. This allows you to focus your attention on learning without having the pressure of having to sit the exam.

Exam Format:

- Objective testing
- 50 questions
- 2.5 hours duration
- Open-book (official guide only)
- 30 marks or more required to pass.

What's included in the price

- PRINCE2 Agile Practitioner Course and course materials
- PRINCE2 Agile Practitioner Exam (Fully flexible attendance)
- Workplace Implementation Pack (includes Phone support and checklist)
