

Why use Tanner James for your In-House PRINCE2 Foundation Training?

Because Tanner James offers a PRINCE2 Foundation Course that is focused on practical application in the workplace and flexibility.

Based on PRINCE2® Version 7

Implementation Support and practical application in the workplace

We don't want participants to just leave with a PRINCE2 Foundation qualification; we want to give them understanding and knowledge about practical application of PRINCE2 in the workplace.

This is why our PRINCE2 Foundation Course includes a Workplace Implementation Pack. It is focused on helping participants implement the training when they get back to the workplace. The Workplace Implementation Pack consists of:

-  **A free half-day Implementation Workshop** to help answer participants specific questions about implementation in the workplace.
-  **Free telephone support** from the trainer for up to one hour in the month following the course.
-  **A free implementation checklist** so that participants are well placed to hit the ground running when they get back to work.

The total **value of this pack is over \$2,300**, however we package this in your course price at no extra cost!

You receive over \$4,500 GST Incl.
of additional value

FREE SES Executive Briefing

Senior executives want pragmatic application of PRINCE2 and to avoid common traps such as too much documentation. This is why we include this valuable session for free when you book the In-House PRINCE2 Foundation Course.

The highly engaging Executive Briefing equips SES officers with the understanding they seek in order to be able to provide overall direction to projects using PRINCE2. **This briefing is valued at over \$2,200 inc GST.**

Flexible Exams and Course Attendance

We want to ensure attendees are focused on learning about practical application in the workplace rather than passing an exam. This is why we work with you to find an exam delivery plan to suit your needs - at no extra charge.

We can schedule training to suit staff availability or the current focus of their project. For example splitting the course over two or more weeks. We will discuss this approach with you and together work out a delivery plan to suit your needs.
