

Why use Tanner James for your In-House PRINCE2 Practitioner Training?

Because Tanner James offers a PRINCE2 Practitioner Course that is flexible and provides post-course support for practical application in the workplace.

Implementation Support and practical application in the workplace

We don't want you to just leave with a PRINCE2 Practitioner qualification; we want to help you be able to apply PRINCE2 in your workplace.

This is why our PRINCE2 Practitioner course includes a Workplace Implementation Pack. It is focused on helping you implement PRINCE2 when you get back to the workplace. The Workplace Implementation Pack consists of:

-  **Free telephone support** from your trainer for up to one hour in the month following the course.
-  **A free implementation checklist** so that you are well placed to hit the ground running when you get back to work.

Flexible Exams and Course Attendance

Exams can be sat during a course, however we give you the option to schedule the exam separately, or for participants to sit at one of our monthly public exam sessions - at no additional cost. Giving participants more time to prepare. We will discuss this approach with you and together work out a delivery plan to suit your needs.

We can schedule training to suit staff availability and the current focus of their project. For example this two day course could be run one day a week over two weeks. We will discuss this approach with you and together work out a delivery plan to suit your needs.
